

How can your company help fight COVID-19 in the Philippines?

Depending on the specific intervention, private sector assistance could take the form of:

- Expertise and skill sets (e.g., supply chain, data analytics, marketing/communications, technology and innovation)
- Use of company assets (e.g., locations for vaccinations, equipment)
- Collaboration with and/or funding of local or international organizations undertaking COVID response programs
- Provision of funding or donated items to government entities

COUNTRY-SPECIFIC NEEDS

Increasing Vaccine Access & Delivery

Logistics, Warehousing, and Infrastructure

- Support outsourcing of, or provide donations for, cold-chain maintenance supplies and equipment, especially for remote/rural areas
- Support upgrading the vaccine research and development facility of the Research Institute for Tropical Medicine through funding or donation of technology

Vaccine Distribution, Planning, and Sites of Delivery

- Provide after-hours on-site vaccine delivery in the workplace and/or in other public venues
- Provide expertise and support for outsourcing ultra-cold chain vaccine delivery to third-party logistic providers, especially for remote/rural areas

Staffing, Training, and Administration

- Support development and dissemination of COVID-19 online trainings for private healthcare providers

Data and Monitoring

- Provide support to strengthen the interoperability between the health and lab management information systems
- Improve IT infrastructure in remote/rural areas

Incentives and Messaging

- Design, generate, and/or distribute COVID-19 messaging and communications, through media channels that combat misinformation
- Support national vaccination and health campaigns

Expanding Availability of Tests, Therapeutics, and/or Personal Protective Equipment (PPE)

Supply Availability and Logistics

- Support procurement of molecular diagnostic testing reagents and strengthening of genomic sequencing capacity
- Provide expertise to strengthen public hospital testing and reporting capabilities
- Support outsourcing of, or provide donation for, bulk liquid oxygen and oxygen supplies for COVID-referral hospitals
- Provide support to local manufacturers with production of standard and quality PPE

Staffing, Training, and Administration

- Work with medical, nursing, and respiratory care associations to provide continuous learning trainings and on-site mentoring for frontline workers

Other

- Provide expertise to COVID-19 referral hospitals on healthcare waste management
